Install Jansma VIP Ad Manager as an App

Ad Manager Essentials · https://support.jansma.vip/docs/jansma-vip-ads/ad-manager-essentials/install-jansma-vip-ad-manager-as-an-app/

Jansma VIP Ad Manager can be installed as a progressive web app (PWA). The installed experience opens in its own window while using the same secure account and live platform data.

> Install only from ads.jansma.vip. A connection is required for current statistics and account changes.

Chrome or Edge on desktop

1. Open the Ad Manager and sign in.
2. Select **Install VIP Ad Manager** in the header or the browser install icon.
3. Confirm the installation when your browser asks.
4. Open the new app from the desktop, Start menu or application launcher.

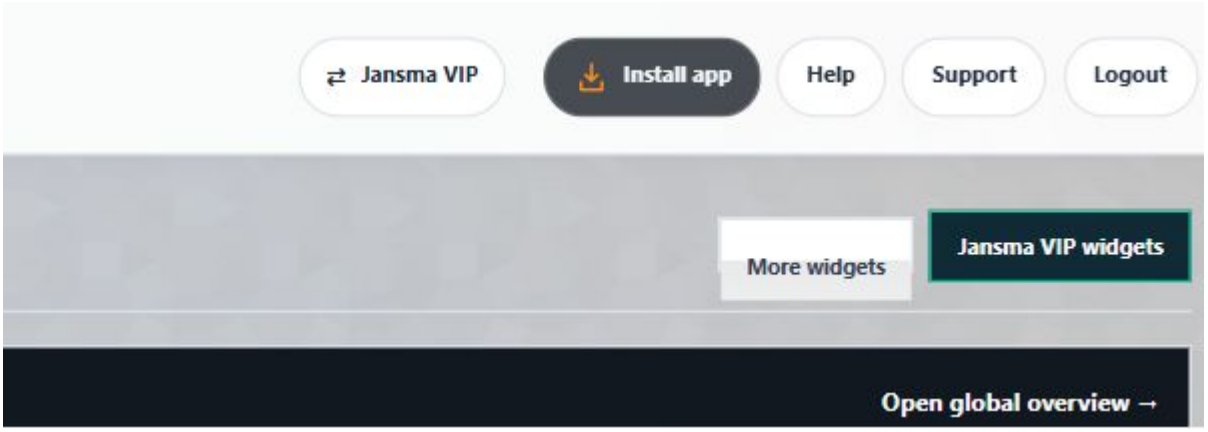

Android

1. Open the Ad Manager in Chrome.
2. Open the browser menu and choose **Install app** or **Add to Home screen**.
3. Confirm the name and placement.

iPhone or iPad

1. Open the Ad Manager in Safari.
2. Tap **Share**, then **Add to Home Screen**.
3. Enable the web-app option when offered and confirm.

If no install option appears, update the browser, open the site in a normal tab rather than private mode and confirm that installation is allowed by your device or organisation policy.
