ULTIMATE HALE GYM
Samuel Jackson
I started seeing David when I started rehab on my knee after significant ligament damage. After countless physios that were unable to help I was recommended David. David is one of the best in the sports profession I have ever come across. His advise and knowledge is second to none. He helped me recover and strengthen from my injury and I have remained with him for three years with my online gym program which has been extremely beneficial. To add to all this David is a top bloke, 10/10 rating from me!
