Understand Limits and Billing

Account & Settings · https://support.jansma.vip/docs/vip-reputation/account-settings/understand-limits-and-billing/

Plan limits determine the locations, messages, automation usage and other resources available to a VIP Reputation account.

Review current usage

Open the plan or billing area to compare current consumption with the included limits. Allow for reporting delays when checking recent activity.

Compare plans

Review the capabilities, quantities and billing period before changing a subscription. Features and prices shown in the account are the current source of truth.

Change a subscription

Confirm the new plan, billing frequency and effective date before approving a change. Upgrades or quantity changes can affect future charges.

Cancellation and access

Review the displayed consequences before cancelling. Export any data you are entitled to retain and note when features or access will end. Contact Jansma VIP Support if the account information is unclear.

Need help with this feature? Contact Jansma VIP Support with the relevant account area, location and non-sensitive error details. Availability can depend on your plan, connected services and third-party platform rules.
