Reviews

Product Features · https://support.jansma.vip/docs/vip-reviews/product-features/reviews/

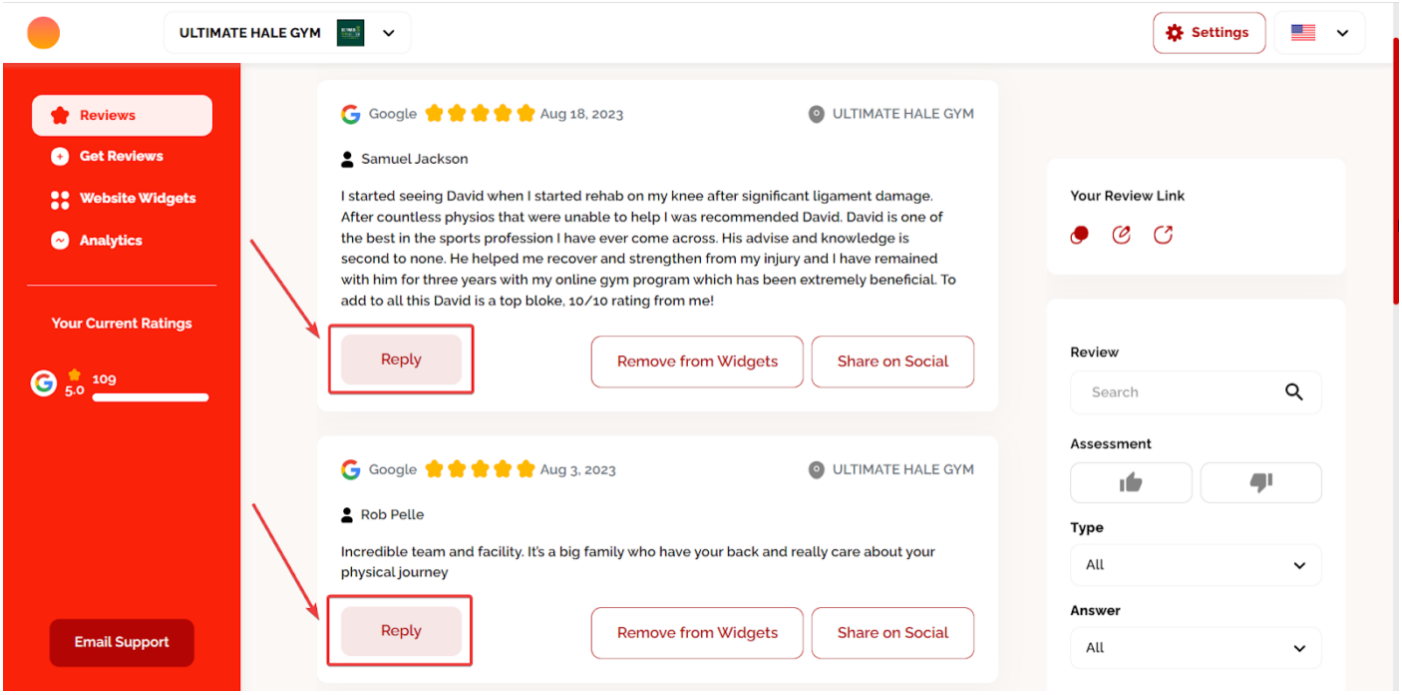

Now, as you have your review platforms integrated, software automatically starts populating platform feed with reviews (this process could take some time).

On the left sidebar of **Reviews** section, you will see the list of integrated platforms with rating and number of reviews.

On the right sidebar, you can search and find reviews by entering keywords, filter reviews by *Assessment*, *Type*, *Answer* and *Date*.

We also give you an opportunity to monitor and respond to all reviews right from the platform. To do so, just go ahead and click **Reply** on each review.

ULTIMATE HALE GYM
Samuel Jackson
I started seeing David when I started rehab on my knee after significant ligament damage. After countless physios that were unable to help I was recommended David. David is one of the best in the sports profession I have ever come across. His advise and knowledge is second to none. He helped me recover and strengthen from my injury and I have remained with him for three years with my online gym program which has been extremely beneficial. To add to all this David is a top bloke, 10/10 rating from me!
